

**COMMITTEE ON APPROPRIATIONS
SUBCOMMITTEE ON AGRICULTURE, RURAL DEVELOPMENT,
FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES
Fiscal Year 2024 Member Request Guidance**

Distinguishing Community Project Funding, Program, and Language Requests:

Community Project Funding (CPF) request: A funding request for a specific governmental or other eligible entity to carry out a specific community project.

Example: *Provide \$500,000 for a specific entity in City, State.*

Programmatic request: A request to fund a specific program in the bill at a specified level.

Example: *Provide \$200,000,000 for the ReConnect program.*

Language request: A request to include specific bill or report language that does not direct funding to a particular entity but encourages, urges, or directs some type of action by an agency.

Example: *The Committee encourages USDA to study the impact of expanded broadband on rural economic prosperity.*

If the programmatic or report language request is intended to be for a specific governmental or other entity and not competitively awarded, then it should be requested as **Community Project Funding**.

Community Project Funding Requests:

The Subcommittee will include a limited number of community projects this year. Members will be able to submit up to 15 CPF proposals across all Subcommittees for the fiscal year 2024 process.

Although programmatic and language requests may be made for any account, **only six accounts in the Agriculture appropriations bill will include CPFs. Keep in mind project funding will depend on available resources, and larger requests may have to be reduced.**

Eligible Accounts in AG Subcommittee bill:

Agricultural Research Service, Buildings and Facilities
Natural Resources Conservation Service, Conservation Operations
Rural Development, Rural Housing Service, Community Facility Grants
Rural Development, Rural Utilities Service, ReConnect Grants
Rural Development, Rural Utilities Service, Water and Waste Grants
Rural Development, Rural Utilities Service, Distance Learning and Telemedicine Grants

All CPF requests must meet applicable eligibility requirements for the program in which the request is made, including applicable underlying statutory and regulatory requirements (e.g., cost share). Any CPFs that are funded in an appropriations bill will need to apply to USDA to receive the award. The application will be reviewed for compliance prior to official award. **To ensure your project meets eligibility requirements for the Rural Development and Natural Resources Conservation Service**

accounts, you must consult with your respective State Rural Development or State Conservation office which can be found here:

Rural Development: <https://www.rd.usda.gov/about-rd/state-offices>

Natural Resources Conservation Services: <https://www.nrcs.usda.gov/conservation-basics/conservation-by-state/state-offices>

Here are the specific pieces of information needed for the Agriculture bill:

1. The website address of the proposed recipient.
2. If there are additional costs necessary to complete the project, have those been secured?
3. For Rural Development projects, is the project for an eligible purpose and does it meet all eligibility requirements under current law?
4. Does the entity plan to make grants to other entities from the funds provided and, if so, to whom?
5. Why is the project a priority for the district? Briefly explain the community benefits.
6. Has any funding for the project been included in any presidential budget and, if so, how much, in which fiscal year, and in which agency or agencies and program(s)?
7. Has the project received Federal funding before and, if so, how much, when, and from which agency or agencies and program(s)?
8. Have you contacted the State Rural Development Office/State Conservation Office to discuss the project and confirm eligibility?
9. For ARS B&F only, what is the estimated start date of the project? How soon could the feasibility/engineering design phase commence? [mm/yy]
10. For ARS B&F only, does the project have distinct and separable phases?
11. For ARS B&F only, what is the estimated completion date of the project? When does completion of construction occur? [mm/yy]
12. For ARS B&F only, have you verified that this facility is owned or operated by the Agricultural Research Service?
13. For ReConnect requests only, please provide relevant information, such as the number of households, businesses, or farms that would be served, what the performance of the service to be offered will be, and whether healthcare or educational facilities will be served.
14. For Conservation Operations requests only, briefly describe how the project will reduce soil erosion, enhance water supplies, improve water quality, increase wildlife habitat, or other objectives that will help conserve, maintain, and improve natural resources.
15. For Water and Waste requests only, provide relevant information, such as the number of households, businesses, or farms that would be served.

Department of Agriculture, Rural Development, Community Facilities Grants

Grants to purchase, construct, or improve essential community facilities, to purchase equipment, and pay other related project expenses. Examples of eligible projects include but are not limited to: medical or dental clinics, healthcare facilities, police or fire departments, and public works vehicles.

Priority will be given to essential projects, such as those focused on public health and safety.

Any project must serve a rural area as specified in 7 CFR 3570.53 (rural areas including cities, villages, townships and Federally Recognized Tribal lands with no more than 20,000 residents).

The Member's request must demonstrate community support. Members should ensure that their request provides the most complete description of the project as possible. Submissions should include details on all proposed use of funds, activities that will occur, timeline, and detailed information on the complete service territory.

Such requests are also subject to cost share requirements specified in 7 CFR 3570.63(b). Please review program regulations carefully.

Community Facilities grants cannot be used to pay initial operating expenses or annual recurring expenses, refinance existing debt, pay interest, build or repair facilities in non-rural areas, or pay for construction costs of facilities that will be used for commercial rental space.

The State Rural Development Office is a valuable resource to answer program questions, including eligibility and non-federal cost share requirements. For fiscal year 2023, the average Community Facilities CPF award was about \$1.3 million.

Department of Agriculture, Rural Development, ReConnect Program

ReConnect broadband pilot grants facilitate broadband deployment in rural areas. Grant funds can be used for the costs of construction, improvement, or acquisition of facilities and equipment needed to provide broadband service to rural areas without sufficient broadband access, defined as 25 Mbps downstream and 3 Mbps upstream.

The area must be rural and lack sufficient access to broadband service. A rural area is any area which is not located within a city, town, or incorporated area that has a population of greater than 20,000 inhabitants. Sufficient access to broadband is defined as greater than 90% of any rural area in which households have fixed, terrestrial broadband service delivering at least 25 Mbps downstream and 3 Mbps upstream. Mobile and satellite services will not be considered in making the determination of sufficient access to broadband.

Stand-alone middle-mile projects are not eligible under the ReConnect Program. However, middle-mile facilities are eligible if they are needed to bring sufficient broadband service to all premises in the area.

Members are strongly encouraged to include information in their requests, such as the number of households, businesses, or farms will be served in the area, what the performance of the service to be offered will be, and whether healthcare or educational facilities will be served.

Additionally, when submitting a request, Members are reminded that all policies and procedures apply, including environmental and related reviews and the non-federal cost share requirement of 25% of the overall project cost. Policies and procedures can be found at <https://go.usa.gov/xexPT>.

USDA's Rural Development office is a valuable resource to answer program questions, including eligibility. For fiscal year 2023, the average ReConnect CPF award was nearly \$1.2 million.

Department of Agriculture, Rural Development, Distance Learning and Telemedicine Grants

The Distance Learning and Telemedicine program (DLT) helps rural residents better utilize the enormous potential of modern telecommunications and the internet for education and healthcare, two critical components of economic and community development. The DLT program helps rural communities acquire the technology and training necessary to connect educational and medical professionals with students, teachers, and patients in rural areas.

Grants may be used for audio and video equipment, broadband facilities that support distance learning or telemedicine (not actual broadband), computer hardware or network components/software, and acquisition of instructional programing.

Any requests are subject to all regulations governing the program which can be found at 7 CFR Part 1734. The program requires a 15% match that cannot come from another Federal source. Members are strongly encouraged to provide as much detail as possible on how the award will be utilized, what equipment of service will be acquired and any information on population(s) served. The program is intended to serve rural areas with populations of 20,000 or less.

The State Rural Development Office is a valuable resource to answer program questions, including eligibility.

Department of Agriculture, Rural Development, Water and Waste Disposal Grants

The Water and Waste Disposal Grant Program may be used to finance the acquisition, construction or improvement of drinking water sourcing, treatment, storage and disposal; sewer collection, transmission, treatment and disposal; solid waste collection, disposal and closure; and storm water collection, transmission, and closure.

Members are strongly encouraged to provide details on the number of households and businesses served and details of the exact work to be completed.

Eligible entities include rural areas and towns with population of 10,000 or less and Tribal lands in rural areas. The account has not been subject to CPFs in the previous years. Potential recipients will be required to provide a 25% non-federal cost share.

The State Rural Development Office is a valuable resource to answer program questions, including eligibility.

Department of Agriculture, Agricultural Research Service, Buildings and Facilities

The Agricultural Research Service (ARS) owns and operates laboratories and facilities across the United States. Many of these laboratories/facilities are decades old, have outlived their functional lifespan, and are badly in need of major repairs, renovation, or replacement. Requests can assist in the acquisition of land, construction, repair, improvement, extension, alteration, and purchase of fixed equipment or facilities as necessary to carry out the agricultural research programs of the Department of Agriculture. Requests must be for ARS-owned or operated facilities.

Members are strongly encouraged to provide details on the research to be conducted, why the research is a high priority, as well as details on the modernization and why it is critical in carrying out the research.

Department of Agriculture, Natural Resources Conservation Service, Conservation Operations

The Natural Resources Conservation Service (NRCS) supports private landowners, conservation districts, and other organizations to conserve, maintain, and improve the Nation's natural resources. Examples of specific objectives include reducing soil erosion, improving soil health, enhancing water supplies, improving water quality, increasing wildlife habitat, and reducing damage caused by floods and other natural disasters.

Members are strongly encouraged to provide details on the work to be done, including if the project will conduct surveys, investigations, or research, and if there is a plan to publish the results of any such work. Members should also describe any preventive measures to be taken, such as engineering operations, methods of cultivation, or changes in use of land.

For FY24, the Subcommittee will only consider projects for funding recipients that are State, local, and Tribal organizations, or public conservation districts. Non-profit recipients will not be considered.

The State Conservationist is a valuable resource to answer program questions, including eligibility. House CPFs in the account averaged about \$1.3 million in FY23.
